NexGen Rook I Completeness Check: Review of NexGen Responses to Information Requests (IRs) and Supporting Documents Received Sept 5, 2023

Reference #	Status	Rationale	Context and Information Required for a Complete Response
Reference #: IR-1	Complete: Yes		
Reference #: IR-2	Complete: Yes		<p>General Advice to the proponent: The response notes that: “As this IR is out of the scope of the EA, no changes are proposed in the revised EIS.”</p> <p>CNSC staff expect that all issues and concerns raised by indigenous nations and communities be included in the EIS report including all commitments made by NexGen to Indigenous Nations and Communities. Please note that CNSC staff also expect that NexGen include all commitments made be included in the Commitments Report.</p>
Reference #: IR-3	Complete: Yes		
Reference #: IR-4	Complete: Yes		
Reference #: IR-5	Complete: Yes		
Reference #: IR-6	Complete: Yes		<p>General Advice to the proponent: This IR response and the IR response for IR-15 do not align. The response to IR-15 which states that NexGen has consulted with ACFN would also be relevant to this IR and would suffice in satisfying the completeness check for this IR.</p>
Reference #: IR-7	Complete: Yes		
Reference #: IR-8	Complete: Yes		
Reference #: IR-9	Complete: Yes		
Reference #: IR-10	Complete: Yes		
Reference #: IR-11	Complete: Yes		
Reference #: IR-12	Complete: Yes		
Reference #: IR-13	Complete: Yes		<p>General Advice to the proponent: Typo in column 3, “Project Effects Link” - Should be “Public information and disclosure”</p>
Reference #: IR-14	Complete: Yes		
Reference #: IR-15	Complete: Yes		
Reference #: IR-16	Complete: No.	<p>Rationale: The information provided is insufficient to allow a technical review.</p>	<p>Context and Information Required for a Complete Response: The IR response is incomplete as it does not provide supporting information that demonstrates how NexGen confirmed that Indigenous Nations and communities have reviewed and validated their summary of issues and concerns table and/or a path forward to complete the validation throughout the EIS and the update in the IER.</p> <p>Please provide supplemental information using an example of at least one of the Indigenous Nations/communities as to how NexGen plans to address the summary of issues and concerns table and/or a path forward to complete the validation in the revised EIS.</p>

Reference #: IR-45	Complete: Yes		
Reference #: IR-46	Complete: No	Rationale: The information provided is insufficient to allow a technical review.	Context and Information Required for a Complete Response: A response that the requested information will be reflected in licensing documents at a future date is not a sufficient response. Although fully detailed information is not required at this stage, the information in the draft EIS lacked the level of detail required for the reviewer to complete their technical review. Summaries of detailed program information that will be provided at licensing are expected to be provided as part of the EIS and supporting documents, if required for subject matter experts to determine that significant adverse environmental impacts will be avoided, limited, or mitigated. Please provide a complete response with sufficient additional detail for reviewers to complete their technical review.
