

Appendix 9-5

Amphibian and Reptile Species List

Appendix 9-5: List of Amphibian and Reptile Species in the Local Assessment Area and Their Conservation Status

Common Name	Scientific Name	Conservation Status*
American Toad	<i>Bufo americanus</i>	
Blue-Spotted Salamander	<i>Ambystoma laterale</i>	
Boreal Chorus Frog	<i>Pseudacris triseriata</i>	
Common Snapping Turtle	<i>Chelydra serpentina serpentina</i>	Special Concern –SARA Schedule 1
Cope's Gray Tree Frog	<i>Hyla chrysoscelis</i>	
Gray Tree Frog	<i>Hyla versicolor</i>	
Green Frog	<i>Rana clamitans</i>	S1S2
Mink Frog	<i>Rana septentrionalis</i>	
Mudpuppy	<i>Necturus maculosus</i>	
Northern Leopard Frog	<i>Lithobates pipiens</i>	Eastern Populations – Not At Risk
Northern Spring Peeper	<i>Hyla crucifer</i>	
Red-Sided Garter Snake	<i>Thamnophis sirtalis parietalis</i>	
Western Painted Turtle	<i>Chrysemys picta</i>	
Wood Frog	<i>Rana sylvatica</i>	

Note: * Included in Conservation Status Listing: Manitoba Conservation Data Centre (MBCDC 2015: rare and very rare species); federal *Species at Risk Act* (SARA: Schedule 1); The *Endangered Species and Ecosystems Act* of Manitoba (MBESEA: Endangered or Threatened);

Species at Risk Act (SARA) (2015)

Definitions for Status Listing:

- Schedule 1: is the official list of species that are classified as extirpated, endangered, threatened, and of special concern.
- Threatened: a wildlife species that is likely to become endangered if nothing is done to reverse the factors leading to its extirpation or extinction.
- Special Concern: a wildlife species that may become a threatened or an endangered species because of a combination of biological characteristics and identified threats.
- Endangered: A wildlife species facing imminent extirpation or extinction.

Endangered Species and Ecosystems Act of Manitoba (MBESEA) (2015)

Definitions for Status Listing:

- Threatened: is likely to become endangered; or is particularly at risk if the factors affecting its vulnerability do not become reversed due to low or declining numbers in Manitoba.
- Endangered: is threatened with imminent extinction or with extirpation throughout all or a significant portion of its Manitoba range.

Manitoba Conservation Data Centre (MBCDC) (2015)

Definitions for Provincial Status Listing (for rare and very rare species):

- S1: Very rare throughout its range or in the province (5 or fewer occurrences, or very few remaining individuals). May be especially vulnerable to extirpation.
- S2: Rare throughout its range or in the province (6 to 20 occurrences). May be vulnerable to extirpation.
- ? : Inexact or uncertain; for numeric ranks, denotes inexactness.
