

Section 13: Engagement Database Summary Table – Economics

UNIQUE ID	ROC	Event Type	Date	Event Summary	Interested Parties	Comments	Response (From Denison)
18-EN-ERFN-5.21	5	Workshop	2018-05-03	As part of the engagement program for the Wheeler River Project, Denison organized a workshop for English River First Nation at their Patuanak Reserve location for ERFN and Patuanak members to attend. The workshop aimed to gather community input in relation to road alignment options, treated effluent discharge locations, and mining methods. The meeting had been delayed many times and was held in the Health Clinic because there was a regional power outage.	English River First Nation	You're projecting to start production in 2025. What type of jobs – I'm looking at building capacity in the community and in the school. What can Denison do to build capacity in elementary and middle school students now so they're ready when you are in seven years? What other things besides geologists, can we shoot for?	Denison considered this in section: Existing Environment, Key Indicator: Employment and Training – Educational Attainment
18-EN-ERFN-5.22	5	Workshop	2018-05-03	Same as above	English River First Nation	What about summer programs to get them thinking about working for Denison? Building a partnership between the school and Denison to build capacity within the students so when they do graduate there's a clear path towards employment?	Denison considered this in section: Existing Environment, Key Indicator: Employment and Training – Educational Attainment
18-EN-ERFN-5.30	5	Workshop	2018-05-03	Same as above	English River First Nation	What are the prospects for small scholarships for some of our overachievers?	Denison considered this in section: Scope of Assessment, Key Indicators and Measurable Parameters
18-EN-ERFN-5.31	5	Workshop	2018-05-03	Same as above	English River First Nation	We created a scholarship with another company in honour of the Humboldt Broncos accident. We're open to something like that.	Denison considered this in section: Scope of Assessment, Key Indicators and Measurable Parameters
16-EN-ERFN-99.2	99	Meeting	2016-07-07	English River First Nation and Denison held their first introductory meeting. Discussed relationship development, procurement with ERFN businesses, and ERFN employment opportunities. Scheduled a follow-up meeting to be held in the community of Patuanak.	English River First Nation	ERFN businesses suited to support the Wheeler River project; Minetec Industrial Supply http://www.minetecsales.com/about-us/ (supply house catering to mining industry) Beauval General Store, Gas Bar & Restaurant, located at the Beauval Forks. Material for exploration camps, fuel and groceries.	Denison considered this in section: Existing Environment, Key Indicator: Business Opportunities – Local Businesses

UNIQUE ID	ROC	Event Type	Date	Event Summary	Interested Parties	Comments	Response (From Denison)
16-EN-DesNd-101.1	101	Meeting	2016-09-26	Des Nedhe and Denison held an introductory meeting regarding relationship development and business and procurement opportunities in the future.	Des Nedhe	Interested in any future business opportunities that may be available as Denison advances their Wheeler River Project.	Denison considered this in section: Existing Environment, Key Indicator: Business Opportunities, Local Businesses
16-EN-VPL-105.7	105	Community Meeting	2016-09-07	Denison hosted a community meeting in Pinehouse Lake to introduce the company and the Wheeler River Project.	Village of Pinehouse Lake, Kineepik Métis Local #9, Pinehouse Business North	When it comes to input, one of the reasons we created PBN is for the ability to handle this. Work out jobs and contracts with PBN.	Denison considered this in section: Existing Environment, Key Indicator: Business Opportunities, Local Businesses
16-EN-VB-107.12	107	Community Event	2016-12-06	Denison participated in a community meeting for a local co-management board in Beauval to introduce the company and explain the Wheeler River Project.	MLA - Athabasca, Northwest Communities Management Company, Sipishik Métis Local #37, Village of Beauval	What is the potential of northern communities to invest? It's usually much easier at the startup of a junior company to allow that to happen. The other thing is a legacy – this is where we missed the boat in the past with mining companies coming to the north, for the companies to consider setting up some sort of legacy for the north – some sort of infrastructure, or a fund. A good example is Mistik, a forestry company who set aside a stumpage fee that goes directly to the impacted community. You need to consider that, and it's much easier to do early, when you know a small fraction has to go to that fund, rather than later trying to convince the shareholders who might not be in favour of it. We run into that scenario with some of the established companies. I recommend you begin that sort of setaside for the north, for legacy purposes.	Denison considered this in section: Existing Environment, Key Indicator: Business Opportunities, Local Businesses
16-EN-VB-107.15	107	Community Meeting	2016-12-06	Same as above	MLA - Athabasca, Northwest Communities Management Company, Sipishik Métis Local #37, Village of Beauval	This scenario has repeated itself so many times with indigenous communities being impacted by development, whatever the size and distance. The question in some minds is, we know you're not banging the table. If we do bang the table we had better come up with what we have in terms of assets and human resources, equipment capacities and capabilities. It's no use just to say we want a piece of the action. We need to plan those	Denison considered this in section: Existing Environment, Key Indicator: Business Opportunities – Local Businesses

UNIQUE ID	ROC	Event Type	Date	Event Summary	Interested Parties	Comments	Response (From Denison)
						incremental pieces. We're trying to do that; other things are happening besides the Wheeler River project.	
17-EN-VB-116.5	116	Meeting	2017-09-06	Denison and the leaders of Beauval met and an update on the Wheeler River Project was provided by Denison. Attendees discussed their interest in a formal Memorandum of Understanding regarding working together in the future.	Village of Beauval	Continue to work together to identify areas the community maybe able to support the project activities from a business development perspective.	Denison considered this in section: Scope of Assessment, Key Indicators and Measurable Parameters
19-EN-VB-132.1	132	Meeting	2019-02-01	Denison and Beauval held a meeting, in which Denison provided an update on the Wheeler River Project, including the pending submission of the Project into the environmental assessment process.	Village of Beauval	The sizable construction crew required to meet the needs of the Wheeler project during the construction phase was going to be a difficult task for Beauval to take on. They would like to be involved to whatever extent possible and would need to start looking for ways of maximizing this involvement. Beauval was willing to work with Denison to prepare the community and be ready to maximize opportunities to the extent that he was able to do so.	Denison considered this in section: Existing Environment, Key Indicator: Business Opportunities, Local Businesses
19-LK-ERFNTrap-134.172	134	Site Visit	2019-10-29	Denison met with local land user and English River First Nation Trapper at the Wheeler River Project site location for a full-day to interview him regarding his knowledge of the area, including providing information and feedback on specifics pertaining to wildlife and wildlife movement patterns, fish and spawning areas, local lakes and lake names, recreational and commercial use, traditional food consumption, and specific aspects of the Wheeler River Project. ERFN Trapper provided his consent to Denison to use the information he provided in the environmental assessment. He reviewed the notes taken from the meeting, and	ERFN Trapper	Moose: The area to the north of the Wheeler River Project regional study area (from maps) has generally been better for moose than the local project area. The area east and north of Three Mile Lake, and Omnia winter tracking transects #11 and 4 (see Omnia Terrestrial Baseline Report, Figure 2.5-1; and image included below). He sees more caribou and less moose. He believes this is a natural change and moose are moving further south.	Denison considered this in section: Existing Environment, Key Indicator: Traditional Economy And in section: Assessment of Project Related Effects, Potential Project Related Effects, Potential Effect 3 – Traditional Economy

UNIQUE ID	ROC	Event Type	Date	Event Summary	Interested Parties	Comments	Response (From Denison)
				provided his revisions / modifications to Denison on January 2, 2020.			
19-LK-ERFNTTrap-134.224	134	Site Visit	2019-10-29	Same as above	ERFN Trapper	If the gate at Key Lake is removed or the road is redesigned to go around Key Lake allowing unimpeded access to the north, there would be lots of concerns about the increase in the number of people coming north into this area. However, many people can currently bypass the Key Lake gate and drive along the Fox Lake road. There is a bridge in place (near the south part of Fox Lake road) for access to a drilling camp and this bridge is over a fairly deep river. If this bridge came out, it would restrict access further north along the road. More people have quads these days.	Denison considered this in section: Cumulative Effects
20-EN-VB-382.7	382	Meeting	2020-12-09	Denison provided a presentation to the Village of Beauval on the 2020 field program for Wheeler River and Denison's responses to the COVID-19 global pandemic.	Village of Beauval	Will you have an agreement similar to the ones that Cameco and Orano have? Will you have employment and training targets?	Denison considered this in section: Existing Environment, Key Indicator: Employment and Training, Employment Rate
20-EN-VB-382.10	382	Meeting	2020-12-09	Same as above	Village of Beauval	Team Drilling and Northlands College have a drilling training program. Would you bring something like this to our region?	Denison considered this in section: Existing Environment, Key Indicator: Employment and Training, Educational Attainment
21-EN-LLRIB-392.11	392	Meeting	2021-03-05	As a result of their request, Denison provided a presentation on the Wheeler River Project to the Lac La Ronge Indian Band Lands and Resources Subcommittee.	Lac La Ronge Indian Band	What about employment? If there are no underground workers then there will be less workers.	Denison considered this in section: Existing Environment, Key Indicator: Employment and Training, Unemployment Rate
21-EN-VPL-444.1	444	Virtual Meeting	2021-02-11	Denison hosted a virtual meeting for the municipality of Pinehouse Lake. The public meetings were focused on the Project generally, and did not seek input or comments on the distinct interests of the Métis in respect of the Project or Métis land use. This was expressly stated at the outset of each of the public meetings. Included in the discussion was	Village of Pinehouse Lake	Does Denison have plans to have contracts with Northern Indigenous companies, especially those from impacted/rights bearing communities? Will there be contracts for northern businesses for the life of the mine?	Denison considered this in section: Scope of the Assessment, Key Indicators and Measurable Parameters And in section: Existing Environment, Key Indicator: Business Opportunities, Local Businesses

						Response: Younger adults be involved and educate them. Courses	
22-EN-VPL/ML9-623.3	623	Meeting	2022-06-02	Denison hosted a meeting with the Kineepik Métis Local and the Northern Village of Pinehouse Lake, hosted at the Pinehouse Gas Bar, to share information about the Wheeler River Project, preliminary effects assessment of the Project, and proposed mitigation and monitoring.	Kineepik Métis Local, Village of Pinehouse Lake	Need education and training model that fit within our community structure. A mix of western and traditional learning. Once a job posting goes up its too late, we need to know before hand, as partners we should and deserve to know before hand. To prioritize our people	Denison considered this in section: Existing Environment, Key Indicator: Employment and Training, Educational Attainment
22-EN-VPL/ML9-623.4	623	Meeting	2022-06-02	Same as above	Kineepik Métis Local, Village of Pinehouse Lake	What are the opportunities? A new (smaller, less impactful) method can reduce jobs for the community. We really need to get educated and learn about this kind of mining.	Denison considered this in section: Existing Environment, Key Indicator: Employment and Training, Employment Rate
