

Notice of Determination

John Lusby National Wildlife Area – 29 July, 2020

Environment and Climate Change Canada's Canadian Wildlife Service has determined that the proposed project **Proposed restoration of freshwater wetland segment Amherst Point 1-1**, is not likely to cause significant adverse environmental effects

Mitigation measures will be implemented on site to reduce impacts to wildlife, migratory birds, species at risk and vegetation.

Therefore, Environment and Climate Change Canada's Canadian Wildlife Service may carry out the project, exercise any power, perform any duty or function, or provide financial assistance to enable the project to be carried out in whole or in part.
